# Roadway Variations

**Tunnels**

# Tunnels

**Tunnels can be dangerous**

# Tunnels

**WHY?**

# Tunnels

- **Reduced visibility during the day**

# Tunnels

- Reduced visibility during the day
  - **When entering a tunnel during daytime, especially if it is sunny, visibility is immediately affected by the contrasting darker interior of tunnel.**

# Tunnels

- Reduced visibility during the day
  - **When entering a tunnel during daytime, especially if it is sunny, visibility is immediately affected by the contrasting darker interior of tunnel.**

# Tunnels

- **Before entering, turn on your headlights.**

# Tunnels

- Before entering, turn on your headlights.
  - This will make your vehicle more visible to other vehicles in the tunnel.

# Tunnels

- Before entering, take off your sunglasses so you will be able to see better.

# Tunnels

- Space restriction of a narrow roadway without shoulders

# Tunnels

- Space restriction of a narrow roadway without shoulders
  - Like bridges, you can't get out of the travel lane and you usually do not have alternate lane positions.

# Tunnels

- Space restriction of a narrow roadway without shoulders
  - Like bridges, you can't get out of the travel lane and you usually do not have alternate lane positions.
  - **Try and separate risks by not being in a tunnel while meeting other traffic, especially large trucks.**

# Tunnels

- **Firmly establish your lane position**

# Tunnels

- Firmly establish your lane position
- **Observe and comply with posted regulatory or warning signs**

# Tunnels

- Firmly establish your lane position
- Observe and comply with posted regulatory or warning signs
- **Observe side structures or walls and pavement markings to be sure you are maintaining the best lane position to allow space for yourself and other vehicles in the tunnel**

# Tunnels

**DO NOT STOP IN A  
TUNNEL!!!**

# Tunnels

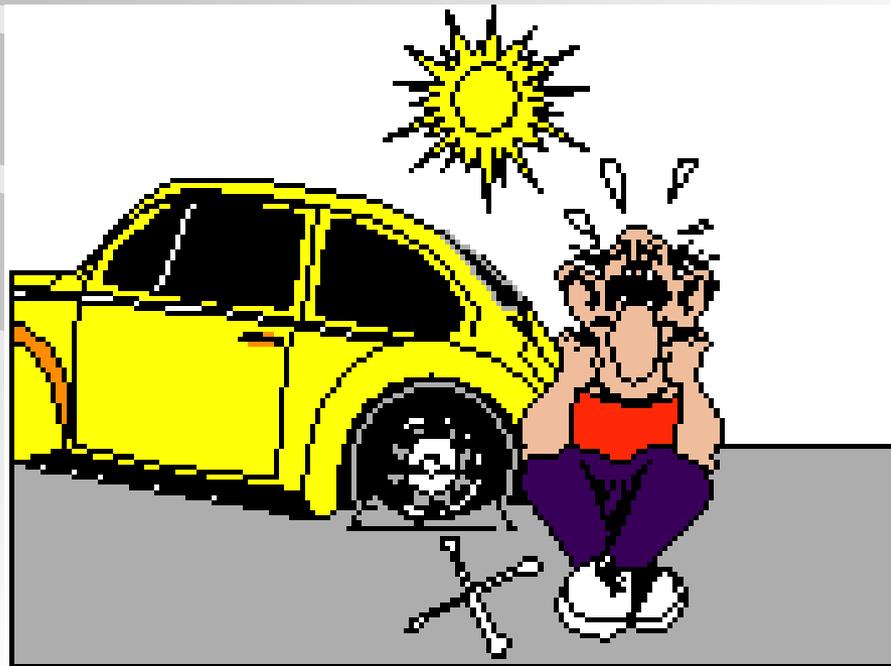

DO NOT STOP IN A TUNNEL!!!

**EXCEPT IN EXTREME  
EMERGENCY**

# Tunnels

**A FLAT TIRE IS NOT AN EXTREME  
EMERGENCY!!!**

# Tunnels

**When you leave the tunnel be prepared for the momentary “blinding” of the day light.**

# Tunnels

**Be extra cautious of the pavement markings and your lane positions until your eyes adjust or you can put your sunglasses on.**
